

Marine Logistics

REV1 / 2022.08.02 / KADI-ANSA-KAHA

Blue Water's experienced staff provides safe and reliable logistics solutions to the marine industry, including cruise and merchant ships.

Services include

- › Worldwide services to merchant ships, cruise ships or any other type of vessel
- › Door-to-door deliveries by road, sea and air
- › Port services and agency
- › Project Management
- › Inventory control and management
- › Temperature controlled transports
- › Extensive knowledge of the industry
- › Direct to ship and last mile deliveries

Service and quality in transport and logistics require much more than trucks, vessels and aircrafts – it requires the right dedicated team of experts.

Based on local contact with global knowledge, we have offered our services to shipowners, ship management companies and vendors to the Marine Industry since 1972.

A longstanding and close cooperation with marine companies has provided us with a great understanding for the needs of our cus-

tomers, and we work from a basis where each client is in focus.

Our areas of expertise cover both cruise vessels, ferries, container vessels, offshore, bulk and tanker vessels.

Focus is on your needs

Choosing the right transport solutions can be difficult as the options are endless. With focus on your needs and your business, our skilled employees guide you in finding the right way of getting your cargo from A to B.

Why choose Blue Water?

- › A local partner with global coverage
- › One point of contact with our skilled specialists
- › Expertise within customs and cargo insurance
